Dear Ferdi,

It was indeed a great pleasure to have an inspector like you for our job even though it was not a complex one in terms of material, design but to keep in mind of the heavy thickness involved (212mm Thk) during fabrication. This is where your expertise and experience had helped us along with your knowledge in PAUT & TOFD to sail through without any hiccups.

Really we commend you for the excellent performance and timely approach shown throughout the job.

We would like to have an inspector like you for our upcoming jobs and special thanks to ACES for referring his CV.

With Regards,

Thanks Ferdi.

You are on the top of my list to call if I need help.

It has been a rare pleasure and an honor to get to know you.

...I know we will work together in the future...

If work prospects get bad and you need some help let me know.

A lot of work has slowed down due to crude prices but it will rebound.

Kevin,

I have my other 'loading inspector' so I can work with him... no problem.

Tell both of them thanks for all the fine service and excellent reports they have provided throughout the project. I

look forward to having contracting their services again in the future.

Thanks,
